

Social Justice and the Environment:

One Denton community's quest for clean water

Clean water is a commodity that not everyone has access to. Without proper management and infrastructure, entire neighborhoods or cities can find themselves without running water in their homes.

Katherine Lindsey, LBSW, MSW, MPA will share how one Denton neighborhood gained access to clean water, and how similar situations can be best addressed in the future.

Thursday, November 10, 2022 at 7 p.m.
